PROFESSIONAL SUMMARY

Passionate and detail-oriented Computer Science Engineering graduate (2022 - 2026) and MERN Stack Developer. Hands-on experience in building scalable, full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Proven track record of developing real-world projects and completing professional internships in web development and design. Strong problem-solving skills and a quick learner ready to contribute to a dynamic tech team.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap

Backend: Node.js, Express.js, RESTful APIs

Databases: MongoDB, Firebase

Tools & Platforms: Git, GitHub, VS Code, JWT, OTP Authentication

EXPERIENCE & INTERNSHIPS

Web Development Intern

July 2025 – Aug 2025

Solitaire Infosys Pvt. Ltd.

- Developed and deployed full-stack web applications leveraging the **MERN stack** (MongoDB, Express.js, React.js, Node.js).
- Built interactive and dynamic frontend interfaces using **React.js**, improving components' reusability.
- Assisted in designing and implementing **RESTful APIs** using Node.js and Express.js for seamless client-server communication.
- Integrated and optimized **MongoDB** databases for secure and efficient data management.

Web Designing Intern

July 2024 – Aug 2024

Solitaire Infosys Pvt. Ltd.

- Designed and developed fully responsive web pages utilizing **HTML5, CSS3, and JavaScript**.
- Enhanced **UI/UX designs**, which boosted user engagement and overall website usability.
- Created reusable UI components, reducing future front-end development time.
- Identified, debugged, and resolved cross-browser compatibility and layout issues.

PROJECTS

1. Online Construction Material Booking System

Technologies: React.js, Node.js, Express.js, MongoDB, JWT

- Built a comprehensive full-stack MERN application to streamline online construction material booking.
- Implemented secure user authentication and security measures using **JWT** and **OTP-based email verification**.
- Developed core modules including product listings, an interactive shopping cart, and an end-to-end order management system.
- Designed robust **RESTful APIs** and implemented **Role-Based Access Control (RBAC)**.

2. Fitness Tracking Web Application

Technologies: React.js, Firebase, HTML5, CSS3, JavaScript

- Developed a responsive fitness-tracking web application to help users monitor daily activities and workouts.
- Created an interactive dashboard using **React.js** reusable components to track real-time user progress.
- Utilized **Firebase** for seamless client-side data persistence and database management.

EDUCATION

B.Tech in Computer Science Engineering

2022 – 2026

APIIT SD India, Panipat

12th (Intermediate)

2020 – 2022

A.N.S College, Bihar

10th (Matriculation)

2019 – 2020

M.G High School, Bihar
